# PAIDI V1 (MINI VAN)

## More Efficiency Delivery

2.6m<sup>3</sup>super volume

## Secure

## SECURE

- Automotive-grade lithium iron phosphate battery cells
- Stamped full-load-bearing cage-type body
- Three-point seat belts are standard
- Vacuum assistance, excellent braking performance, less than 2 meters, higher than competitors

## Space

- The front row can be optionally equipped with a multi-functional storage box, a secondary instrument panel, storage seats, a portable case, and a storage trolley, etc
- The volume of the cargo box can reach 2.6 cubic meters. The interior lighting tubes, power supply, optional document compartment, small table board and other facilities can meet individual needs
- The vehicle body can be customized. Diversified configuration scheme combinations

## SPACE

## Performance

Independently developed permanent magnet synchronous motor, with energy efficiency exceeding 5% of competitors

## PERFORMANCE

- The charging and battery swapping mode is optional. It can be fully charged and set off in as fast as 3 minutes, eliminating range anxiety
- The minimum turning radius of the same level is only 3.9 meters

- Heavy-duty models are available, with a maximum load capacity of 500 kilograms

## Quality

- We will provide specified warranty system for frame, battery and whole vehicle (different due to different market)

## QUALITY

- The rear suspension leaf spring is 20mm larger than that of the competing product, providing more cargo capacity and stability
- It adopts the electronic gearshift of passenger cars and can be optionally equipped with glass electronic lifting and air conditioning for both heating and cooling

## Technology

- Equipped with the TBOX telematics system and built-in GPS module. The cloud platform offers real-time interaction, providing proactive, predictive and value-added services
- 7-inch LCD screen, standard reversing radar and expandable reversing camera function
- The front row is equipped with USB ports to ensure worry-free power supply for electronic products
- Supports the Bluetooth function of mobile phones, allowing you to play music and add fun to your travels

## TECHNOLOGY
